## PROFESSIONAL EXPERIENCE

### Santronix Computers Pvt Ltd

#### Junior Web Developer

July 2023 - Present

- Developed and maintained responsive, visually appealing web applications using HTML, CSS, and Bootstrap (Versions 3 and 5), resulting in improved user engagement and experience.
- Designed and implemented WebForms using .NET (C#), ensuring seamless user interactions and efficient data processing.
- Utilized SQL Server for database management, creating optimized stored procedures to enhance data retrieval and manipulation.
- Demonstrated proficiency in Adobe Photoshop for image editing, creating visually appealing and user-friendly UI designs for web applications.
- **PROJECT** : Online Event Management System
- Developed an Event Management System using HTML, CSS, JavaScript, Bootstrap, .NET framework, jQuery validation plugins, and SQL Server database.
- Implemented user authentication:
- Admin access for overall system management. Separate logins for branch heads, facilitating efficient management of multiple branches and events.
- Allowed branch users to submit event reports. Provided administrators with real-time insights for informed decision-making.
